Education

Master of Science in Cybersecurity, May 2027
Old Dominion University
Bachelor of Science in Information Systems, May 2025
The University of Texas at Arlington

Certifications:

- CompTIA Security+ SY0-701
- MS-900
- Google WS Deployment Services Credential
- Coursera Foundations of Cybersecurity

Projects

Self-Taught Custom-Built PC Systems

- Proficient in component selection, including CPUs, GPUs, motherboards, memory, and storage solutions.
- Skilled in system integration, ensuring compatibility and peak performance.
- Conducted troubleshooting and diagnostics to resolve hardware and software issues.

Experience

Support Engineer, Alliance Info Systems July 2025 – Present

- Administer and support Microsoft 365 environments, including user lifecycle management, license provisioning, mailbox permissions, and security configurations.
- Manage Microsoft Entra ID (Azure AD) identities, distribution lists, and security groups, ensuring proper access control and role-based permissions across the organization.
- Configure and maintain Microsoft Intune policies for Windows 10/11 devices, enforcing endpoint compliance, security baselines, and device configuration standards.
- Create and manage SharePoint Online sites, supporting site provisioning, permissions management, and collaboration workflows for internal teams.
- Monitor and troubleshoot Exchange Online mail flow, perform message trace investigations, and manage spam filtering through Barracuda Email Security.
- Provide technical support and system troubleshooting through ConnectWise, resolving complex hardware, software, identity, and network-related issues using remote management tools.
- Conduct monthly phishing simulations, analyze user response metrics, and deliver security awareness guidance to improve organizational cybersecurity posture.
- Manage and prioritize service requests and incidents using ITIL-based processes, ensuring timely resolution and minimal disruption to business operations.

Tier 2 Help Desk Technician, Silver Linings Technology January 2023 – January 2025

- Administered Microsoft 365 and Google Workspace environments for multiple client organizations, managing user lifecycle processes including account provisioning, deprovisioning, license assignments, and access control.
- Managed identity and access management through Microsoft Entra ID (Azure AD) and Google Admin, maintaining distribution lists, security groups, and role-based access permissions.
- Maintained Windows 10/11 systems and endpoint configurations, increasing patch compliance from 82% to 97% through proactive update management and system remediation.
- Supported security and compliance initiatives, assisting with vulnerability remediation, security audits, and system hardening across client environments.
- Performed incident triage and log analysis during security alerts, gathering evidence and escalating findings to engineering and security teams for investigation.
- Collaborated with vendors and internal engineering teams to deploy endpoint management tools, security platforms, and infrastructure improvements.

Skills

M365 Admin | Microsoft Azure | Microsoft Intune | Microsoft Entra | Microsoft Purview | SharePoint | O365 | Google Admin | Active Directory | ConnectWise | Ninja RMM | Windows OS | MacOS | Python | SQL | Java | Customer Service | Problem-Solving
